

MIDLANDS WORKFORCE DEVELOPMENT BOARD

Working together for tomorrow's workforce.

WHAT IS THE MIDLANDS WORKFORCE DEVELOPMENT BOARD (MWDB)?

The MWBD is a program dedicated to helping individuals learn new skills, find employment and help to progress their careers. The MWDB serves everyone regardless of income or employment status. They have tools and staff to help people determine what jobs best matches their interests and skills.

WHAT SERVICES DOES THE MWDB PROVIDE?

It is the MWDB's goal to make it as easy as possible for your business to find well-trained, highly qualified employees. The MWDB helps you save time and money by listing jobs in their system, pre-screening applicants based on your specifications, interviewing applicants and providing you with invaluable labor market information. They can also help with specific training needs or advise you on certain financial eligibility.

WHAT DOES THIS MEAN TO YOU?

Good question. The MWDB provides businesses like yours the opportunity to gain productive, experienced employees who are trained to work for you. By doing so, your business is rewarded in cash.

For example, the MWDB sent DESA several qualified recipients. DESA provided the recipients with real, on-the-job experience, and afterwards, hired two new employees. These employees had an incredible drive to produce dynamic work due to the training they were provided. For doing this, DESA not only gained two great employees, but also received over \$1,000 for helping to increase South Carolina's workforce.
